October 5

November 2

December 7

Study materials are thorough and comprehensive. Classroom focus is on teaching students the content they will need to know and showing students how that content will appear in test questions.

Testing experience is provided through 3 full-length testing sessions.

Each student will work through *The Official SAT Study Guide* by the College Board as well as a comprehensive set of study materials.

*Our goal is to help students achieve their best scores, whether it is to assure a place in the university of choice or to score high enough to qualify for scholarship awards. This course presents students with the best opportunity to prepare for these tests and to learn the material they will need to know.*
